

# NJAFS 2024 SPRING SEMINAR

## FORENSICS IN THE AGE OF ARTIFICIAL INTELLIGENCE

**MAY 10<sup>TH</sup> 2024**  
8am to 6pm

**NJIT - Agile Strategy Lab (L70)**  
Central King Building  
345 Dr MLK Junior Blvd.  
Newark, NJ, 07102

### ■ OVERVIEW:

The NJAFS seminar will bring together experts to discuss how artificial intelligence (AI), forensic science, and the legal system work together. This is a great opportunity for attorneys, forensic scientists, law enforcement professionals, as well as students to learn from each other. The seminar will investigate how AI influences forensic practices, promoting valuable insights and innovation at the intersection of technology and justice. The goal of the seminar is to enhance understanding and inspire the development of innovative solutions.

### ■ TOPICS

- AI GENERATED MEDIA
- THE INTERSECTION OF AI IN FORENSICS AND THE LAW
- AI IN FORENSIC EDUCATION
